

J Soler Alcaraz

I have over 25 years' experience working in education and have been part of the North Ridge community since 2015. I began my journey at the school as a Learning Support Assistant and have since progressed through a range of roles to become Headteacher. I am incredibly proud to be leading North Ridge and to give back to a school that has shaped my professional journey.

Throughout my career, I have developed strong experience in quality assurance, school improvement, and raising standards, always with a clear focus on positive outcomes for pupils. I am passionate about supporting children to be the very best they can be, both academically and personally, and I believe in creating an inclusive, nurturing environment where every child is valued and encouraged to succeed.

As a member of the Academy Council, I bring a deep understanding of the school, a commitment to high standards, and a child-centred approach to decision making, ensuring that the best interests of pupils remain at the heart of everything we do.
