

North Ridge Community School recognises the importance of keeping safe online, whether on social media, games, other accessible Apps and on the World Wide Web.

We have a CEOP Ambassador on site to

- help **staff** to recognise the signs and support students,
- to support **students** to recognise when they are not safe, know how to keep safe and report to an adult any concerns
- to support **families** in being more prepared for the changing world of modern day internet safety and to help you all stay Safe Online.

Please have a look at some of the web links listed below which can provide up to date information, guidance and suggestions on how to work with your young person safely.

In school we teach our students the importance of recognising when they feel unsafe online and to use the CEOP link to report this. This symbol is clearly displayed around school.

If you are worried about the way someone has been communicating with your son / daughter online

Click on the CEOP link to make a report to one of CEOP's Child Protection Advisors, or follow the link:
