

Northridge Community School

Non-Disclosure Statement – Text based systems to Parents/Carers

Dear Parent/Carers,

Northridge Community School uses Teachers 2 Parents service to contact Parents/Carers via a text message to your personal device.

We believe that this is an essential way to contact you regarding school events and also in the case of emergencies e.g. school closure due to bad weather.

The service is provided by Teachers 2 Parents and in order to use the text based system, we have to store your mobile number with this company.

The service level agreement we have with this company ensure that they adhere to the Data Protection Regulation (2018).

By submitting and using the School provided text based system you are giving explicit consent to use the number provided and stored within the solution.

If at any point you would like your number to be removed from the text based system please inform us in writing with a letter addressed to the Head Teacher or email us at northridge@nexusmat.org.

If you seek any further information on this matter, please speak to our Head Teacher in the first instance.

Kindest regards,

Anita Denman

Head of School
